Welcome Message

It gives me great pleasure to invite you to the 9th Cross-Strait Paediatric Respirology Congress cum 20th HKSPRA Annual Scientific Meeting which will be held on 21 – 22 October 2017 in the Cordis Hong Kong.

This year is our Society's 20th Anniversary. The Society has made substantial development since its establishment in 1997, the annual meeting has become an important event for members of the Society. The participants have included paediatricians, general practitioners and allied health professionals including nurses, dietitians, occupational therapists, pharmacists, physiotherapist and medical students.

The organizing committee has invited a faculty of distinguished local and overseas speakers. They will deliver state-of-the-art lectures in Respirology, Allergy, Critical Care, Infection and Sleep. A variety of learning modes will be featured such as offsite courses, onsite workshops, oral & poster presentations as well as exhibition of medical products and equipment. Our speakers will present the forefront of practice in their special interests and will update you on the best current practice.

We look forward to warmly welcoming every delegate. Your attendance will be a valuable and enjoyable experience both scientifically and socially.

See you all in Mongkok, a vibrant neighbourhood of Hong Kong.

Dr. Daniel Ng

Offsite Course

24 - 27 October 2017 (Tue - Fri)

Course name	**Advanced Breathing Re-education Course for Myofunctional Therapy**
Venue	Room 229, 2/F., Block G, Kwong Wah Building, Kowloon Hospital, 147A Argyle Street, Kowloon
Fee	HKD 7,000 (member) HKD 14,000 (non-member)
Organizers	Academy of Orofacial Myofunctional Therapy Asian Paediatric Pulmonology Society Hong Kong Society of Paediatric Resppirology and Allergy
Co-organizers	Department of Paediatrics, Kwong Wah Hospital Department of Physiotherapy, Kwong Wah Hospital
Course Description	As Myofunctional Therapy aims to establish healthy patterns for chewing, swallowing and breathing, we have long advocated the application of the Buteyko method to compliment and assist us in our treatment. We have partnered with Patrick McKeown to develop and teach a protocol for this programme specifically tailored to the needs of specialists working in myofunctional therapy. This programme will immediately add to your success in patient care. With establishment of nasal breathing a key objective of myofunctional therapy, this course provides key additional training to re-educate breathing plus further knowledge of the airway, key co-morbidities such as sleep disorders, allergies, and asthma, and further grounding in working in an interdisciplinary team. Taking this course will not only speed results in treating patients, but also help the patient have better results and provide greater stability in those results over time. Upon completion of the course, all attendees will receive access to 100 hours of supplemental online education and background in the Buteyko Method. On completion of the course, students will have the option of taking an examination and submitting case studies whereby practitioners may receive accreditation in the form of a certificate in the Buteyko Method. Practitioners will then be registered on the ButeykoClinic.com website.
Faculty	Dr. Victor Abdullah *Consultant and Cluster Chief of Service, Department of ENT, United Christian Hospital* Ms. Brigitte Fung *Physiotherapist, Kwong Wah Hospital* Mr. Patrick McKeown *Clinical Director, Buteyko Clinic International and Chairman of its Advisory Board* Ms. Samantha Weaver *Has been a Director of the AOMT for several years and is proud to support research at Stanford School of Medicine in myofunctional therapy and a Buteyko Breathing Educator*
Remarks	The course is only available to delegate who also registers for the Main Meeting.
